BPM 105 SERIES

PERFECT FOR CRUD & POW. MEDIUM TURN RADIUS

Introduced in 2020, the 105 Series takes all of the characteristics of the 95 series and increases the waist size to 105 mm. With the wider waist, this ski is for people demanding a bigger ski for crud and pow, but still holds a strong edge on the front side. The 105 uses our ash/poplar core combined with a medium turn radius. With the increased mass of this ski size, they will blast through anything. These skis are monsters and get a lot of attention! Lengths are available in 160,170, and 180 cm.

BPM 85 SERIES

HIGH SPEED FRONT SIDE CARVER. SHORT TURN RADIUS WITH AMAZING EDGE HOLD

Hold on tight with our 85 series. The 85 Series is our 85mm waist short radius front side carver. This ski was designed for the dynamic skier in mind. With tons of energy from the ash/poplar core this ski grabs the snow like a cat on carpet. Lengths are available in 160,170, and 180 cm.

BPM 95 SERIES

THE ONE SKI QUIVER. SHORT RADIUS FOR PRECISION SKIING

The 95 series is our tried & true Midwest All-Mountain ski. We currently have 3 years of testing and design into this ski, and is the ideal Midwest one ski quiver. The 95 series has a 95mm waist and uses our ash/poplar core combined with a shorter turning radius ski. From worst ice days, chunky crud, moguls, and pow, this ski is everything you can ask for in one package. Our second generation of this ski was dubbed the “wagon ruts” as they carved so hard they would leave 1 inch deep ruts in the corduroy which would consume small children as they hit them. This is a very

LENGTH OPTIONS

WHAT LENGTH SKI SHOULD I BUY?

Ski sizing is generally relative to the skiers height, the type of skiing they prefer, and personal preference. Regardless of what ski you choose on the website we will contact you and make sure your ski length and series are exactly what you need.

For this season BPM will be offering 3 lengths in our all mountain skis and one length in the park series In the future we will be breaking the lengths into smaller 5cm increments.

CUSTOM GRAPHICS

YOUR SKIS, YOUR WAY

BPM has the capability to make your custom-ski design come true! If you are able to provide us with a vectorized image or a high-resolution photograph, we can print it on your ski for the custom design rate.

We're a small, family-owned business, and we don't have a full-time graphic designer on staff, so our abilities to create designs for you completely from scratch are limited. We are glad to help where we can, and for completely custom projects any design time will be charged at an additional hourly rate.

ACCEPTED FILES TYPES

- Vectorized designs with files types of .ai, .eps, .pdf
- High resolution photographs in .jpg format

DESIGN FEES

- The hourly design fee is \$50.00
- Design fees may be charged for extra formatting & resizing of submitted images or graphics, download & manipulation of graphic materials from third-party sellers, or additional revisions beyond the standard two revisions that are included
